Photos & Images

Photos

- Standard Scan of Loose Photos* **\$.60/image**
- Standard Scan of Loose Photos* – 500+ bulk rate **\$.50/image**
- Specialty Scanning of Loose Items** **\$.70/image**
- Negatives **\$.70/image**
- Slides – 35mm (ask about other sizes) **\$.70/image**
- Removing/Replacing Photos in Albums or Frames*** **\$75/hour**
- Optional: Files returned on flash drive **\$25**
- Optional: Files returned on external hard drive **\$75**

**Standard Scan is a photo 8"x10" or smaller without glue, tape or sticky substances on either the front or back of photo.*

***Specialty Scan is a photo larger than 8" x 10", an album page, newspaper, photos with glue, tape, or sticky backs, or other fragile materials requiring a flatbed scanner.*

****You are encouraged to remove your photos from albums and frames before giving them to us for scanning. However, we provide this service at an hourly charge for your convenience.*

Photo digitization services include:

- Photos scanned at 600dpi, and slides and negatives at 1800 dpi. Images are saved as .jpg files, but other image file types are available by request.
- Minor editing of scanned images if needed, such as correcting rotation, cropping when needed, and sharpening/denoising to produce the best result possible given the age and quality of the original image.
- Embedding metadata into the .jpg file when available. Metadata is information about the photo such as dates, people's names, events, locations, etc. which makes your photo collection searchable and easier to organize.
- If photos are provided in a certain order, that order will be maintained. If not, I'll create a basic organizing structure.
- Images are delivered to you in a private, secure online gallery where you can view and download your full resolution files to your preferred storage. Your online gallery will remain open for 90 days after our project is complete. We can also assist you with getting them into the cloud storage of your choice if you wish for an additional hourly charge.

Pix & Pieces respects copyright laws and the rights of intellectual property owners. Therefore, we may be unable to digitize or convert certain material.

Digitizing Services & Pricing

Film & Video

Video & Audio Conversion

- Convert DVD or CD to .mp4, .mov, or .mp3 **\$20/disk**
- Convert other digital and online formats to .mp4, .mov, or .mp3 **Ask for Quote**
- VHS tapes, film reels, and audio tapes (shipped to FOREVER's Digitization Center in Green Bay). **Ask for Quote**

All conversion services provided in-house include:

- Trimming the beginning & end of the files to eliminate blank space.
- Adding metadata with capture date, keywords, locations, and other info.
- Your video files are returned to you for viewing in a private, secure online gallery. You can download your full resolution files from this gallery into whatever storage system you prefer, or I can assist you with getting them into the cloud storage of your choice.

Optional Add-Ons to Video & Audio Conversions:

- Cut converted video file into multiple clips **\$75/hour**
- Video files returned on a flash drive **\$25**
- Video files returned on an external hard drive **\$75**
